PRODUCT HIGHLIGHTS

# SUPERIOR COMFORT, DURABILITY, AND CAPABILITY

Balanced proportions of All-Terrain capability, high durability, with excellent on-road capabilities and manners in all weather conditions.

## BENEFITS

- All weather grip in varied conditions
- Excellent stability on-road
- Quieter ride with exceptional on-road experience
- Ruggedized for hard work and hard play

## FEATURES

- 3 Peak Mountain Snow Flake marked, with 5th generation polymer blend providing outstanding wet weather stability with full depth interlocking sipes
- Wider tread pattern, increased tread stiffness, and four herringbone grooves for water evacuation
- Low noise tread design with groove multi-pitch technology
- Jointless Hexabead technology, self-cleaning tread, high tensile steel belts with a cut and chip resistant compound

## DNA OF THE PINZA

Refined for on road civility

Built rugged for off road capability

## ADVANCED TECHNOLOGY

- Optimized compound ensures outstanding traction & durability in any condition
- LT specific compound tuning for heavy load, high stress, rough use applications
- P-Metric compound tuned for long life, unwavering grip, and broad terrain capability
- A.I. driven and real world validated pattern noise research to reduce noise levels
- Optimized footprint envelopes paved and unpaved roads while evenly distributing wear
- Herringbone Grooves with a wider tread for precise steering and stability
- Exclusive LT 3-ply triplex construction built to dominate the roughest terrain
- High tensile steel belts in both LT and P-Metric tire constructions
